A Card.

TO THE VOTERS OF BATES COUNTY. It must be evident to all who paid any attention to the late democratic convention held in Butler, that the wishes of many democrats were disregarded, and not only so but the votes of enough delegates who intended to vote for me, but were cast by the chairman of at least one township on the final ballot for Mr. Wilson, to have given me the nomination. The evidence to substantiate this statement is in my possession, as is also proofs that the chairman of one township refused to poll the delegation, but announced the result which he knew was contrary to the wishes of at least one-half of such delegation. Believing as I do, that the democratic party is opposed to such flagrant outrages, and that they will rebuke such action at the polls, have determined to submit my name to the voters of Bates county or Recorder, as an independent candidate, and if elected promise you my very best efforts to discharge will assure you that any confidence reposed in me will not be betrayed.
